

Noninstructional Facilities Information
For Amended Application to FCC Form 471 for Funding Year 2004

Organization Name:

USF Funding Year: **2004**

Noninstructional Facility Name <i>(Please also indicate any noninstructional facilities located within instructional buildings)</i>	Address <i>(Street Address, City, County, State, ZIP Code)</i>	Telephone	Fax

SLD guidelines state that a noninstructional site is a **separate** building that provides services to all schools within a school district and usually does not house children; for example, an administration building, transportation facility, maintenance facility or remote kitchen for lunch preparation. Noninstructional areas may also exist within buildings that house children. Please indicate where those areas are located as well. Although separate entity numbers will not be assigned for facilities located under the same roof, it is still good information for Intelenet to have during review processes. For more information about this requirement, and for definitions, please visit the SLD's Web site at: www.sl.universalservice.org/reference/Entity_Numbers.asp.

Intelenet Commission Form 4

Created 2-2004 / Revised 0/0000

If you should have any questions please contact Marcia Ping, Intelenet Commission, 317.233.2198.
Please return your completed form to Marcia Ping, Intelenet Commission, 101 W. Ohio Street, Indianapolis, IN 46204-1974
or FAX Attn: Marcia Ping at 317.233.9000.
